Education

Diploma: Computer Programming
Overall CPGA - 4.23/5 CGPA
Durham College, Oshawa, Ontario

Professional Summary

Results-driven and detail-oriented **Computer Programming graduate** with a strong academic foundation in software development, database management, and systems analysis. Adept at leveraging programming expertise, problem-solving acumen, and analytical thinking to design efficient, scalable solutions. Experienced in **fast-paced, client-facing environments** with proven adaptability, effective communication, and collaborative teamwork. Passionate about **emerging technologies**, with a commitment to continuous learning and delivering value-driven IT solutions.

Skills

- **Programming & Development:** Python, C, C++, Java, SQL, Web Development (HTML, CSS, JavaScript)

- **Databases & Systems:** MySQL, Oracle, Linux, Windows OS

- **Software & Tools:** Git/GitHub, Visual Studio, Eclipse, PyCharm

- **Core Competencies:** Critical Thinking & Problem-Solving | Team Collaboration | Communication | Technical Documentation | Customer-Centric IT Support | Time & Task Management

Work History

- **Crew Member,** 01/ 2024 to Present

  Odd Burger – Oshawa, ON

- Delivered **efficient, customer-focused service** in a high-volume fast-food environment, ensuring accuracy, speed, and customer satisfaction.

- Applied **problem-solving and multitasking abilities** to manage operations during peak business hours.

- Collaborated with team members to streamline service workflows and uphold **safety and compliance standards**.

Projects

SQL Database Management System

- Engineered an advanced **SQL-based database** to manage patient and physician records, track treatments, and monitor prescriptions, enhancing efficiency in healthcare data management.

- Applied **normalization techniques** and relational database design to ensure data accuracy, scalability, and integrity.

C# JSON Data Management Application

- Developed a **C# application** for college admissions to validate student registrations against institutional criteria and determine eligible academic programs.

- Implemented JSON for structured data handling, enabling fast and reliable **data validation and storage.**

Certifications

- **Mastering Linux: The Comprehensive Guide**

- **Python Essential Training**
